Bluetongue, African Horse Sickness, and Related Orbiviruses: Proceedings of the Second International Symposium Thomas E. Walton, Bennie I. Osburn
Bluetongue, African Horse Sickness, and Related Orbiviruses: Proceedings of the Second International Symposium provides the latest scientific information about this group of Orbiviruses, which are transmitted by species of Culicoides (biting midges) and are important causes of disease in domestic livestock and wildlife. Originally presented at the Second International Symposium on the Orbivirus held in Paris, France in June 1991, the book reviews the history and latest data on epizootiology; clinical syndromes and host responses; vector biology, competence, genetics, and capacity; molecular virology and genetics; and diagnostic procedures. The book covers regulatory issues associated with bluetongue, epizootic hemmorrhagic disease, African horse sickness, Ibaraki disease, and equine encephalosis. It also addresses the latest orbiviral diagnostic procedures including ELISA and the polymerase chain reaction; the latest cloning, sequencing, and genetics information of these viruses, and the genetics of oral susceptibility of the vector.

Bluetongue, African Horse Sickness, and Related Orbiviruses: Proceedings of the Second International Symposium is an excellent reference source for researchers in arbovirology, veterinary regulatory officials, foreign animal disease diagnosticians, and veterinary students.
