The Triumph of Mercy: Philosophy and Scripture in Mulla Sadra

Mohammed Rustom

The Triumph of Mercy: Philosophy and Scripture in Mulla Sadra Mohammed Rustom
Discusses philosopher Mull? ?adr?'s commentary on the opening chapter of the Qur'?n.

This book investigates the convergence of philosophy, scriptural exegesis, and mysticism in the thought of the celebrated Islamic philosopher Mull? ?adr? (d. 1050/1640). Through a careful presentation of the theoretical and practical dimensions of ?adr?'s Qur'?nic hermeneutics, Mohammed Rustom highlights the manner in which ?adr? offers a penetrating metaphysical commentary upon the F?ti?a, the chapter of the Qur'?n that occupies central importance in Muslim daily life. Engaging such medieval intellectual giants as Fakhr al-D?n al-R?z? (d. 606/1210) and Ibn 'Arab? (d. 638/1240) on the one hand, and the wider disciplines of philosophy, theology, Sufism, and Qur'?nic exegesis on the other, ?adr?'s commentary upon the F?ti?a provides him with the opportunity to modify and recast many of his philosophical positions within a scripture-based framework. He thereby reveals himself to be a profound religious thinker who, among other things, argues for the salvation of all human beings in the afterlife.

"Informed, informative, and a superb example of seminal scholarship, *The Triumph of Mercy* is a highly recommended and core addition to academic library Islamic Studies and Philosophy Studies reference collections and supplemental reading lists." — *Midwest Book Review*

"By focusing on ?adr?'s commentary on the Qur'?n's opening chapter, Rustom shows how the great Iranian thinker created an original Qur'?nic hermeneutics as well as a new ontology of the Qur'?n. Rustom's book is a groundbreaking and richly detailed study of the way that ?adr? both appropriated and transcended the Islamic traditions of theology, mysticism, philosophy, and scriptural exegesis." — Robert Wisnovsky, author of *Avicenna's Metaphysics in Context*

"Mohammed Rustom has opened the door to a remarkable philosophical exegesis of the Qur'?n in this pathbreaking study of the outstanding Iranian thinker of the seventeenth century, Mull? ?adr?. In the process, he clarifies the profound connections between philosophy, Sufism, and Islamic theology in ?adr?'s work. This absorbing study will be welcomed by anyone interested in the fundamental question of how reason interacts with revelation." — Carl W. Ernst, author of *How to Read the Qur'?n: A New Guide, with Select Translations*

"This first book-length survey of Mull? ?adr?'s Qur'?nic commentaries is a major contribution to the study of this seventeenth-century Muslim philosopher and to the field of philosophical exegesis in Islam. Mohammed Rustom presents ?adr?'s vision for the unity of the 'intellectual' and 'transmitted' sciences and gives us a complete picture of a first-rate thinker contemplating upon the Qur'?n. He does an excellent job of contextualizing ?adr?'s Qur'?nic hermeneutics within the framework of his 'Transcendent Wisdom' and shows how scriptural reasoning complements philosophical vision. Based on an in-depth reading and translation of ?adr?'s key texts on Qur'?nic exegesis, the book examines a much-neglected aspect of ?adr?'s thought and introduces the reader to the rich philosophical tapestry of the Islamic intellectual tradition." — Ibrahim Kalin, author of *Knowledge in Later Islamic Philosophy: Mull? ?adr? on Existence, Intellect, and Intuition*
