The Option Trader's Hedge Fund: A Business Framework for Trading Equity and Index Options
Dennis A. Chen, Mark Sebastian
In this book, a hedge fund manager and an option trading coach show you how to earn steady, reliable income selling options by managing your option trades and running your option portfolio as a real business with consistent, steady returns. Packed with real-world examples, the authors show you how to manage your own “one man” hedge fund and make consistent profits from selling options by applying the basic framework and fundamental business model and principles of an “insurance company”. This framework helps you to apply your option trading strategy to a solid, predictable, business model with consistent returns. For someone who has some knowledge of trading options and wants to become a consistent income earner. The authors provide a complete “operations manual” for setting up your business. Gain pearls of wisdom from both a professional options trader and coach, and from a hedge fund manager focused on managing an options based portfolio.
