A Handful of Seawater Ron Frazer
On the Caribbean island of Grenada, Morgan is fending for himself, an orphan, the poorest of the poor in a poverty-stricken country. After living on the streets for a few years, he meets Alden, an elderly fisherman with a somewhat zen-master presence who takes him on as an apprentice and teaches him both about fishing and living. Morgan complains that the local girls don't want to have anything to do with him because he is too black and too poor. Morgan wants to marry and have children but more than anything he wants to replace the relationship with his mother that he lost through a horrific accident when he was a small boy. This is a story of sex, drugs and Reggae on one hand and personal growth on the other. Readers have appreciated how the novel presents a realistic view of life on a tropical island.
