Islam: And the Clash of Civilizations Panini
In the 21st century, the greatest threat to the existence of the United States and its allies in Europe does not come from Russia, China, or North Korea. It comes from Islam. Islam is not merely a religion. It is a complete civilization with its own ethics, metaphysics, theology, and political theory in opposition to every other civilization on Earth. The Taliban, al-Qaeda, Boko Haram, the Muslim Brotherhood, and ISIS are merely brand names with a common ideology — literal implementation of the laws of Sharia, and abolishment of every non-Islamic religion and political system in the world. The wars against Islamic fundamentalists and revolutionaries in Iraq and Afghanistan have failed, despite over four trillion dollars in spending and the loss of more than 10,000 American lives. There are only two choices left for the United States and the citizens of the Free World — either to surrender to Islamic imperialism, or to defeat it utterly... But how? This book is the very first to explain, rationally and in detail, how to defeat Islamic imperialism decisively and permanently. Read it, and you will know how easily you — wherever you may live — can take the steps needed to rid the world of Islam's threat to peace, progress, and prosperity — without harming the vast majority of Muslim people who secretly want freedom as much as you do. About the Author: Panini has been studying the growth of Islamic fundamentalism worldwide for over thirty years. He is a native of India, and an American citizen. Panini is a pseudonym.
