Silo 42 has a secret. A very big secret. A secret so important that if known could be the end of them all. For almost a century, their life has been considerably different than life in the other Silos. But that may be about to change. The Head of Silo 1, Donald Keene, is growing increasingly concerned about the information he is receiving about Silo 42. In response the time is quickly approaching when Silo 42 may be forced to save itself from the overly controlling rules of their benevolent overseers. Andrew Lathrop, Head of IT in Silo 42, has begun training his Shadow, Stewart Sloan, when a deadly decision must be made. On the scene arrives Vanessa Villanova, a beautiful female engineer, who plays a pivotol role to lead Silo 42 in its race to avoid destruction. Deception is more than a fast-paced mystery thriller. This story also contains real and practical solutions for some of most pressing issues facing our society regarding energy use, food production, personal, mental, physical health, and more. If the ideas that made life in Silo 42 sustainable were applied to life outside the Wool universe, we would see a different future for our planet.
