Math Lit

Kathleen Almy, Heather Foes

Math Lit Kathleen Almy, Heather Foes
Note: This is a Standalone book and does not include Access Card/Code.

Math Lit, by Kathleen Almy and Heather Foes, provides a one-semester alternative to the traditional two-semester developmental algebra sequence for non-STEM (Science, Technology, Engineering, and Math) students. This new approach offers an accelerated pathway to college readiness through developmental math, allowing non-STEM students to move directly into liberal arts math or introductory statistics, while also preparing STEM students for intermediate algebra. Through its emphasis on contextual problem-solving, the Almy/Foes worktext and its accompanying MyMathLab course help students understand and practice the major themes of numeracy, proportional reasoning, algebraic reasoning, and functions.
