Out of Water - Design Solutions for Arid Regions Liat Margolis, Aziza Chaouni
Which approaches can landscape, urban and architectural designers take to contribute their specific professional skills and means to solve the problem of water scarcity? What potential do available technologies and materials offer, what methods and tools can be derived from social engagement? Based on five years of research, the results of the Out of Water project are laid out here in a series of case studies and essays by international experts.
