Strings, Conformal Fields, and Topology: An Introduction (Graduate Texts in Contemporary Physics)

Michio Kaku

Strings, Conformal Fields, and Topology: An Introduction (Graduate Texts in Contemporary Physics)
Michio Kaku
Following on the foundations laid in his earlier book "Introduction to Superstrings", Professor Kaku discusses such topics as the classification of conformal string theories, the non-polynomial closed string field theory, matrix models, and topological field theory. The presentation of the material is self-contained, and several chapters review material expounded in the earlier book. This book provides students with an understanding of the main areas of current progress in string theory, placing the reader at the forefront of current research.

From reader reviews:

Mitchell Diaz:

The book Strings, Conformal Fields, and Topology: An Introduction (Graduate Texts in Contemporary Physics) has a lot info on it. So when you read this book you can get a lot of gain. The book was published by the very famous author. Mcdougal makes some research before write this book. This specific book very easy to read you can find the point easily after scanning this book.

David Kane:

People live in this new time of lifestyle always aim to and must have the time or they will get lot of stress from both day to day life and work. So , whenever we ask do people have free time, we will say absolutely yes. People is human not a robot. Then we question again, what kind of activity are there when the spare time coming to a person of course your answer can unlimited right. Then do you ever try this one, reading publications. It can be your alternative throughout spending your spare time, the actual book you have read is definitely Strings, Conformal Fields, and Topology: An Introduction (Graduate Texts in Contemporary Physics).

Nancy Brown:

It is possible to spend your free time to see this book this e-book. This Strings, Conformal Fields, and Topology: An Introduction (Graduate Texts in Contemporary Physics) is simple to bring you can read it in the park, in the beach, train and also soon. If you did not have got much space to bring the particular printed book, you can buy typically the e-book. It is make you quicker to read it. You can save often the book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

Barbara Davis:

Some individuals said that they feel fed up when they reading a publication. They are directly felt it when they get a half portions of the book. You can choose the actual book Strings, Conformal Fields, and Topology: An Introduction (Graduate Texts in Contemporary Physics) to make your personal reading is interesting. Your own skill of reading talent is developing when you like reading. Try to choose basic book to make you enjoy to learn it and mingle the feeling about book and examining especially. It is to be very first opinion for you to like to open up a book and read it. Beside that the publication Strings, Conformal Fields, and Topology: An Introduction (Graduate Texts in Contemporary Physics) can to be your brand new friend when you're sense alone and confuse with what must you're doing of this time.
