Covert Assignment is a New Adult, coming of age novel with a strong romantic element.

Elle is ready for graduation and full-fledged adulthood: no more living like the leftover of her parent's divorce. She's about to graduate with her degree in Information Science (the 21st century term for Library Science) and has a ten-year plan as well-designed as any model for analyzing metadata: earn her JD/MBA, enjoy a couple of years as a single professional, then marry her college sweetheart, Adam, and start her own family.

Yet Elle feels like she returned to an alternate universe her final semester. There are pictures of Adam with a classmate who must be surgically enhanced, but he insists he wants Elle. CIA recruiters show up on campus, and they aren't just interested in recruiting Elle for future employment: turns out she's already working for them since they're funding her thesis. Hot operative Preston Raddick is tasked to work with her. Preston isn't just hot: he's hot for Elle, but is he offering happy ever after or happy for right now? A fling with Preston could be the beginning of a new life plan, which is exciting and scary, especially with espionage thrown in. Elle needs a predictive model to tell her which decisions have the greater likelihood for happiness…

Covert Assignment is about the unexpected turns life can take when making "adult" decisions.
