On Both Sides of the Red Light: Before and After Lfe As An Escort Shawna Caffery
When Shawna; the nurse became Sonya the Escort; the new life and the experiences that came with the new career change had taken Shawna into a world of confusion, self-doubt, hostile environments, as well as the ability to make more money than she'd ever imagined or had banked ever before, and unleash extraordinary strengths that had laid dorment for most of her life. From her life before entering the sex industry and while working in the sex industry entails a true Kaleidoscope of difficulties and eye-opening challenges and situations. With more than a decade in a career that most people would either criticise or have misgivings about, Shawna decided to leave any negative views of society or herself way behind. In doing so she found that becoming an Escort was quite an admirable, necessary and prestigous career if treated as such and respected. Apart from the "eye-opening" experiences and sights that Shawna encountered, her mind had stretched far more than ever before. Leaving behind her disfunctional childhood and an opportunity to be the principal dancer in a European dance academy, her depression as a sole parent and financial hardships, she struggled with her life for years and after her son left home and with her thirty-ninth birthday looming a chance flick through her local newspaper had led to a totally different life-style and attitude. This book does not only cover a woman's late-in-life career change but also a woman's personal experiences and views on an industry that for many decades has been wrongly judged and feared. The truth is that "prostitution" as it's labelled has not only helped to heal societies but the men and women who frequent the services of an Escort. Included in this autobiography is not only Shawna's story of her experiences as an Escort but also of several accounts of other men and women who have stood out in her memory as truly unique people. Shawna includes her personal opinions of her life as an Escort and reveals myths and truths about everything that is known as "the Sex Industry"- the laws governing the industry on a global arena, public misunderstandings and judgements, the issues that every woman or man faces while working in the industry, the strange clients that are encountered and their equally strange fantasies, health and safety practices, lonliness and segregation and the people skills that are learnt and strengthened via new friendships, bew experiences and the opportunity to shine as an individual that works in an industry that has been honoured and sought after by so many for so long...while the majority of the world still stays in the dark like a mushroom as it's safer and more feasible to remain that way. This unique and easy to read account of one woman's story of her life as a (mature aged) Escort holds many interesting aspects of the sex industry that only those whom work within it may appreciate or understand. Also the touches of dry humour and honest appraisals of life as an Escort, and what lead Shawna into "the business" will be certain to change the minds of many of those people, communities and law-makers when they realise there is more than meets the eye to an industry that has been labelled as illegal, depraved and unnecessary.
