Dear friend,

Speed reading is the amazing ability to read and learn faster than anyone else. It is a skill practiced and perfected by elite university students all over the world, which allows them to study for exams efficiently and finish books before other people are even halfway through them.

Speed reading saves time and can be applied whenever you need to read something. It could be your morning newspaper, emails, or your favorite blog. Not only does it save you countless hours, it also represents a brain exercise that will improve your memory, productivity, and focus in all kinds of situations.

In my book, **Speed Reading Techniques**, you will discover how to tap into this elite skill and learn to absorb information with almost inhuman efficiency. Your alertness and concentration will reach peak levels, a change that will also improve your ability to listen and pay attention to teachers, co-workers, family and friends.

Speed Reading, a Skill For Life

Here is a brief overview of what is inside:

- How to be alert at all times and concentrate better
- **How your brain deals with written information**
- Common mistakes to avoid to boost reading speed
- **How to prepare your mind and environment for speed reading and productivity**
- Speed reading techniques and tricks to read more rapidly
- **A lot more!**

Speed reading, or rapid reading, can improve your life in numerous ways. Once learned, you will deal with information in a more efficient manner that will enhance your relationships, your enjoyment of all forms of

media, and your knowledge of the world. It is a skill for life, one that will save you an immeasurable number of hours over the decades, while being more productive at the same time.
